

Simplifying implementation by transforming training

The BD eLearning Platform—
quick, efficient, customized training for the BD Veritor™ Plus System

Improve training and implementation with the BD eLearning platform, offering interactive, online learning any place, any time.

BD eLearning Platform

Maximizing the capabilities of the BD Veritor™ Plus System

The comprehensive eLearning platform for the BD Veritor™ Plus system streamlines and simplifies training and tracking (local regulation or accreditation efforts), enabling you to quickly train staff and implement point-of-care testing using the following assays:

- SARS-CoV-2*
- Flu A+B (Moderately complex or CLIA-waived)
- Group A Strep
- RSV** (Moderately complex or CLIA-waived)

We realize you may face challenges when introducing a new diagnostic instrument or assay:

- ⊗ Lack of a **cohesive training program**
- ⊗ No means to check **training compliance**
- ⊗ Difficulty **locating reference materials**
- ⊗ Difficulties in **assessing staff competency**
- ⊗ Outdated or **inconsistent resources**

The result: inefficient implementation and a stalled workflow.

*The SARS-CoV-2 assay:

- This test has not been FDA cleared or approved;
- This test has been authorized by FDA under an EUA for use by authorized laboratories;
- This test has been authorized only for the detection of proteins from SARS-CoV-2, not for any other viruses or pathogens; and,
- This test is only authorized for the duration of the declaration that circumstances exist justifying the authorization of emergency use of in vitro diagnostics for detection and/or diagnosis of COVID-19 under Section 564(b)(1) of the Act, 21 U.S.C. § 360bbb-3(b)(1), unless the authorization is terminated or revoked sooner.

*This product is only to be used under an Emergency Use Authorization
**Respiratory syncytial virus

We can help you address these challenges with the new BD eLearning platform by providing your staff with:

Comprehensive, customized training curriculum for each user or group of users

The latest versions of resources and references

The platform also allows you to monitor your staff's progress by:

Reviewing training compliance with easy-to-use reporting and dashboard tools

Verifying when users have finished training, and making certificates of completion available

It all means simple and fast training, resulting in an easy instrument and assay rollout.

Delivers a comprehensive, customizable training platform

The interactive BD eLearning platform covers the portfolio of the BD Veritor™ Plus System, while offering simplified, personalized training

All-encompassing training modules for all available assays (SARS-CoV-2, Flu A+B, Group A Strep and RSV)

- Includes introduction to the BD Veritor™ Plus system
- Each 5-minute module follows the same structure:

1. Introduction to the disease state

4. Interpretation of results

2. Sample collection and preparation

5. Competency assessment

3. How to run the assay on the BD Veritor™ Plus system

A personalized, dynamic learning experience

- Allows the assignment of training plans by role or product
- Facilitates learning with interactive videos, featuring step-by-step instructions and concrete examples
- Allows staff to quickly learn essentials or delve into technical detail
- Provides flexible training, at your staff's convenience, on any device or number of devices, any place, any time
- Enables deployment of plenary training sessions for a group of users

A complete library of resources and references

Continually updated with the latest FDA-cleared versions of:

User
manuals

Package
inserts

Specimen
collection
guides

Quick
reference
cards

Conveniently manage training compliance and completion

The eLearning platform provides dashboards and reports, enabling you to easily access:

 A listing of assigned courses for any particular user

A graphic representation of results, including status, scores, total time spent and number of launches, overall or for each learning unit

 Metrics on test results for each learner, compared to other learners in the session

Every user's course certificate, certifying completion

These tools enable you to easily monitor training progress, and provide documentation to help you prepare for audits.

Frequently asked questions

- **Do I need special software or hardware to access the eLearning platform?**

The eLearning platform is available online, so no special software is needed, just a web browser. You can access the eLearning platform with any computer, laptop or tablet that has Internet access.

- **Am I able to control what my team sees and trains on?**

Yes. The local administrator of the group can manage and follow up with users and their training assignments, using a comprehensive dashboard.

- **What is the cost?**

Currently, BD is offering this service to all BD Veritor™ Plus system customers at no additional cost.

- **How do I get started?**

Contact your local BD sales representative for a free demonstration.

BD Veritor™ Plus System

Combined with the BD eLearning Platform to simplify point-of-care testing, from training to results

- BD eLearning platform that simplifies staff training and system implementation
- Flexible workflow options to adapt to your workplace needs
- Easy-to-read display, featuring 1-button functionality and minimal hands-on time to meet your staff's demands
- Timely, accurate results (15 minutes for SARS-CoV-2; <11 minutes for flu and RSV; <6 minutes for Group A Strep¹⁻⁴) for minimized wait times
- Quality control and traceability with the BD Veritor™ InfoScan module

Ordering information	Cat. no.	Qty.
BD Veritor™ System for Rapid Detection of SARS-CoV-2*	256082	30 tests
BD Veritor™ System RSV CLIA-waived kit	256038	30 tests
BD Veritor™ System RSV (Moderately complex)	256042	30 tests
BD Veritor™ System Group A Strep CLIA-waived kit	256040	30 tests
BD Veritor™ System Flu A+B CLIA-waived kit	256045	30 tests
BD Veritor™ System Flu A+B (Moderately complex)	256041	30 tests
BD Veritor™ Plus System Analyzer	256066	1
BD Veritor™ InfoScan module	256068	1
USB printer cable	443907	1
